SOFTWARE DEVELOPMENT INTERN | JAVA & REST APIs

Information Systems undergraduate, expected to graduate in December 2028, seeking a first professional opportunity in IT. Hands-on academic and personal project experience with Java, Spring Boot, SQL and REST APIs, including data persistence, database queries and HTTP communication between services in a team project. Continuously developing Java projects and practicing backend development. Currently studying cloud computing and AWS fundamentals. Interested in AI, generative AI and automation, and motivated to learn Python and other technologies to contribute to these areas.

TECHNICAL SKILLS

Backend: Java, Spring Boot, Spring Data JPA, JDBC, REST APIs, object-oriented programming
Databases: MySQL, SQL, parameterized queries, DAO pattern
Tools: Git, GitHub, Maven
Frontend: Basic HTML, CSS and JavaScript
Currently learning: Cloud computing and AWS fundamentals

SELECTED PROJECTS

Meu Faturamento | Academic Project - Ongoing
Java, Spring Boot, Spring Data JPA, MySQL, HTML, CSS, JavaScript

- Contribute primarily to backend development and data persistence in a team-built client, service and appointment management system, using Java, Spring Boot and MySQL.
- Work on REST APIs and database operations; the backend includes input validation, transaction handling, SQL/JPQL aggregations and billing summaries.
- Work with an academic microservices architecture comprising billing, scheduling and authentication services, with HTTP/REST integration and separate databases.
- Use Git and GitHub for version control during team development; continue practicing Java and improving the project.

Demo DAO JDBC | Personal Learning Project
Java, JDBC, MySQL | github.com/G-Aug11/demo-dao-jdbc

- Implemented create, read, update and delete operations for sellers and departments.
- Structured data access using DAO interfaces and implementations, SQL joins, parameterized queries, generated key retrieval and exception handling.

EDUCATION

Bachelor's Degree in Information Systems - In Progress
Centro Universitario Senac, Santo Amaro Campus - Sao Paulo, Brazil
February 2025 - December 2028 (expected)

LANGUAGES

Portuguese: Fluent | English: Intermediate to Advanced
